

**REMARKS**

Claims 1-45 are pending in the application. Claims 1-31 are canceled. Claims 46-59 are new.

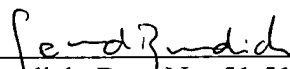

In the Office Action, the Examiner has issued a Restriction Requirement, requiring restriction to one of the following inventions: Group I claims 1-31 drawn to a system for maintaining concentration range of a metal ion solution; and Group II claims 32-45 drawn to a method of maintaining a concentration range of a metal ion in solution.

To advance prosecution, Applicants hereby elect the Group II claims, and cancel without prejudice the Group I claims. Applicants reserve all rights to prosecute the non-elected claims at a later time. The elected claims are indicated in the above Listing of Claims along with new claims 46-59. The new claims are also directed to the Group II invention, and are fully supported throughout the Application as filed.
